

MoFPI Invites Proposals for Food Irradiation and Cold Chain Units

The Ministry of Food Processing Industries (MoFPI) is seeking online proposals for two key initiatives under the Pradhan Mantri Kisan Sampada Yojana (PMKSY):

- Multi-product food irradiation units: Eligible entities nationwide can propose setting up these units under the "integrated cold chain & value addition infrastructure" component scheme. MoFPI will accept proposals until they receive a sufficient number.
- Cold chain projects: Interested entities can apply for these projects on the SAMPADA portal by July 26, 2025, at 5:00 PM (IST).

Important details for applicants:

- All proposals must be submitted online through the SAMPADA portal. No physical submissions will be accepted.
- Applicants should refer to the new guidelines issued by the MoFPI for both schemes.

This initiative aims to enhance food processing infrastructure and reduce post-harvest losses in India.
